Discretionary Grant Performance Measures

OMB No. 0915-0298 Expires: 06/30/2022

Attachment B: Core Measures, Population Domain Measures, Program-Specific Measures (Detail Sheets)

OMB Clearance Package

Public Burden Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0915-0298. Public reporting burden for this collection of information is estimated to average 36 hours per response, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 14N-39, Rockville, Maryland, 20857.

Core 1 Performance Measure	The percent of programs meeting the stated aims of their grant at the end of the current grant cycle	
Goal: Grant Impact		
Level: Grantee		
Domain: Core		
GOAL	To ensure that planned grant impact was met.	
MEASURE	The percent of MCHB funded projects meeting their stated objectives.	
DEFINITION	Tier 1 : Have you met the planned objectives as stated at the beginning of the grant cycle? Prepopulated with the objectives from FOA:	
	• Did you meet objective 1? Y/N	
	• Did you meet objective 2? Y/N	
BENCHMARK DATA SOURCES	N/A	
GRANTEE DATA SOURCES	Grantee self-reported	
SIGNIFICANCE		

Core 2 Performance Measure	The percent of programs engaging in quality improvement and	
Goal: Quality Improvement	through what means, and related outcomes.	
Level: Grantee		
Domain: Core		
GOAL	To measure quality improvement initiatives.	
MEASURE	The percent of MCHB funded projects implementing quality improvement initiatives.	
DEFINITION	improvement initiatives. Tier 1: Are you implementing quality improvement (QI) initiatives in your program? Yes	
	Is there data to support improvement in population health as a result of the QI activities? Y/N Is there data to support organizational improvement as a	
	result of QI activities? Y/N Is there data to support improvement in cross sectorial collaboration as a result of QI activities? Y/N	
BENCHMARK DATA SOURCES	N/A	
GRANTEE DATA SOURCES	Grantee self-reported.	
SIGNIFICANCE		

Core 3 Performance Measure	The percent of programs promoting and/ or facilitating improving health equity.		
Goal: Health Equity Level: Grantee Domain: Capacity Building	equity.		
GOAL	To ensure MCHB grantees have established specific aims related to improving health equity.		
MEASURE	The percent of MCHB funded projects with specific measurable aims related to promoting health equity.		
DEFINITION	Tier 1: Are you promoting and/ or facilitating health equity in your program? Yes No Tier 2: Please select within which of the following domains your program addresses health equity (check all that apply): Income Race Bithnicity Language Socioeconomic Status Health Status Disability Sexual Orientation Sex Gender Age Geography – Rural/ Urban Other: Tier 3: Implementation Has your program set stated goal/ objectives for health equity? Y/N If yes, what are those aims? Tier 4: What are the related outcomes? % of programs that met stated goals/ objectives around health equity Numerator: # of programs that set specific aims around health equity Denominator: # of programs that set specific aims around health equity * Health equity exists when challenges and barriers have been removed for those groups who experience greater obstacles to health based on their racial or ethnic group; religion; socioeconomic status; gender; age; mentahealth; cognitive, sensory, or physical disability; sexual orientation or gender identity; geographic location; or other characteristics historically linked to discrimination or exclusion.		
BENCHMARK DATA SOURCES	N/A		
GRANTEE DATA SOURCES	Grantee self-reported.		
SIGNIFICANCE	Health equity is achieved when every individual has the opportunity to attain his or her full health potential and no one is "disadvantaged from achieving this potential because of social position or socially determined consequences." Achieving health equity is a top priority in the United States.		

CB 1 Performance Measure Goal: State capacity for advancing the health of MCH populations (for National programs)	The percent of programs promoting and facilitating state capacity for advancing the health of MCH populations.	
Level: Grantee Domain: Capacity Building		
GOAL	To ensure adequate and increasing state capacity for advancing the health of MCH populations.	
MEASURE	The percent of MCHB-funded projects of a national scale promoting and facilitating state capacity for advancing the health of MCH populations, and through what processes.	
DEFINITION	Tier 1: Are you promoting and facilitating state capacity for advancing the health of MCH populations for	
	Tier 2: Through what activities are you promoting and facilitating state capacity for advancing the health of MCH populations? Delivery of training on program priority topic Support state strategic planning activities Serve as expert and champion on the priority topic Facilitate state level partnerships to advance priority topics Maintain consistent state-level staffing support for priority topic (State-level programs only) Collect data to track changes in prevalence of program priority issues Utilize available data to track changes in prevalence of program priority issue on national/ regional level Issue model standards of practice for use in the clinical setting Tier 3: Implementation # of professionals trained on program priority topic How frequently are data collected and analyzed to monitor status and refine strategies?: Less frequently than annually Bi-annual Quarterly Monthly # of MOUs between State agencies addressing priority area # of State agencies/departments participating on priority area. This includes the following key state agencies (check all that apply): Commissions/ Task Forces MCH/CSHCN Genetics Newborn Screening Early Hearing and Detection EMSC Oral Health Developmental Disabilities Medicaid	

CB 1 Performance Measure

Goal: State capacity for advancing the health of MCH populations (for National programs)

Level: Grantee

Domain: Capacity Building

The percent of programs promoting and facilitating state capacity for advancing the health of MCH populations.

	☐ Mental & Behavioral Health

Grantee Self-Reported.

CB 2 Performance Measure	The percent of programs providing technical assistance on MCH priority topics.
Goal: Technical Assistance Level: Grantee Domain: Capacity Building	
GOAL	To ensure supportive programming for technical assistance.
MEASURE	The percent of MCHB funded projects providing technical assistance, on which MCH priority topics, and to whom.
DEFINITION	Tier 1: Are you providing technical assistance (TA) though your program? Yes
	# receiving TA # technical assistance activities # TA activities by target audience (Local, Title V, Other state agencies,/ partners, Regional, National, International)

CB 2 Performance Measure	The percent of programs providing technical assistance on MCH priority topics.
Goal: Technical Assistance Level: Grantee Domain: Capacity Building	

SIGNIFICANCE

National Resource Centers, Policy Centers, leadership training institutes and many other MCHB discretionary grantees provide technical assistance and training to various target audiences, including grantees, health care providers, state agencies, community-based programs, program beneficiaries, and the public as a way of improving skills, increasing the MCH knowledge base, and thus improving capacity to adequately serve the needs of MCH populations and improve their outcomes.

Data Collection Form for #CB 2

The form below will be prepopulated by TA selected in domain-specific measures.

All measures for which a grantee reported that they provide TA will be triggered in this table.

Instructions: Please report the number of TA activities for each audience. If TA activities reached multiple audiences, please count for each audience, without concern for duplication. Participants/ public include infants, children, adolescents, adult participants, and families. Community/ local partners are considered to be community-based organizations or municipal or city divisions, programs, or organizations including schools. State or national partners include state or federal divisions or programs, as well as statewide or national organizations, such as non-profit organizations and non-governmental organizations.

CB 4 Performance Measure Edited for clarity Goal: Sustainability Level: Grantee Domain: Capacity Building	The percent of MCHB funded initiatives working to promote sustainability of their programs or initiatives beyond the life of MCHB funding.
GOAL	To ensure sustainability of programs or initiatives over time, beyond the duration of MCHB funding.
MEASURE	The percent of MCHB funded initiatives working to promote sustainability of their programs or initiatives beyond the life of MCHB funding, and through what methods.
DEFINITION	Tier 1: Are you addressing sustainability in your program? Yes No No Tier 2: Through what processes/ mechanisms are you addressing sustainability? A written sustainability plan is in place within two years of the MCHB award with goals, objectives, action steps, and timelines to monitor plan progress Staff and leaders in the organization engage and build partnerships with consumers, and other key stakeholders in the community, in the early project planning, and I sustainability planning and implementation processes There is support for the MCHB-funded program or initiative within the parent agency or organization, including from individuals with planning and decision making authority There is an advisory group or a formal board that includes family, community and state partners, and other stakeholders who can leverage resources or otherwise help to sustain the successful aspects of the program or initiative The program's successes and identification of needs are communicated within and outside the organization among partners and the public, using various internal communication, outreach, and marketing strategies The grantee identified, actively sought out, and obtained other funding sources and in-kind resources to sustain the entire MCHB-funded program or initiative Policies and procedures developed for the successful aspects of the program or initiative are incorporated into the parent or another organization's system of programs and services The responsibilities for carrying out key successful aspects of the program or initiative have begun to be transferred to permanent staff positions in other ongoing programs or organizations The grantee has secured financial or in-kind support from within the parent organization or external organizations to sustain the successful aspects of the MCHB-funded program or initiative

Grantee self-reported.

CB 4 Performance Measure
Edited for clarity
Goal: Sustainability
Level: Grantee
Domain: Capacity Building

The percent of MCHB funded initiatives working to promote sustainability of their programs or initiatives beyond the life of MCHB funding.

SIGNIFICANCE

In recognition of the increasing call for recipients of public funds to sustain their programs after initial funding ends, MCHB encourages grantees to work toward sustainability throughout their grant periods. A number of different terms and explanations have been used as operational components of sustainability. These components fall into four major categories, each emphasizing a distinct focal point as being at the heart of the sustainability process: (1) adherence to program principles and objectives, (2) organizational integration, (3) maintenance of health benefits, and (4) State or community capacity building. Specific recommended actions that can help grantees build toward each of these four sustainability components are included as the Tier 2 data elements for this measure.

women. 11 A participant who has a visit prior to 4-6 weeks must still have a visit between 4-6 weeks to meet the standard and be included in the numerator.

BENCHMARK DATA SOURCES

Related to Healthy People 2020 MICH- 19: Increase the proportion of women giving birth who attend a postpartum care visit with a health worker.

Pregnancy Risk Assessment Monitoring System (PRAMS) (91% in 14 states with no timing restriction, 2011); Healthcare Effectiveness Data and Information Set (HEDIS) – (61.8% Medicaid HMO, 2014)

GRANTEE DATA SOURCES

Grantee Data System; Pregnancy Risk Assessment Monitoring System

SIGNIFICANCE

Since the period immediately following birth is a time of many physical and emotional adjustments, the postpartum visit is important for educating new mothers on what to expect during this period and address any concerns which may arise. Additional issues include any health complications the mother may have and the health benefits of breastfeeding for the mother and baby. ¹²ACOG Committee on Obstetric Practice. Guidelines for Perinatal Care (7th Edition, p. 207) state that 4 to 6 weeks after delivery, women should have a postpartum visit with her doctor.

¹¹Note: ACOG suggests a 7-14 day postpartum visit for high-risk women.

WMH 3 Performance Measure Edited for Clarity and Consistency Goal: Well Woman Visit/ Preventive Health Care Level: Grantee Domain: Women's/ Maternal Health	The percent of programs promoting and/ or facilitating well woman visits/ preventive health care.
GOAL	To ensure supportive programming for well woman visits/ preventive health care.
MEASURE	The percent of MCHB funded projects promoting and/ or facilitating well woman visits/ preventive health care and through what processes.
DEFINITION	Tier 1: Are you promoting and/ or facilitating well woman visits/ preventive health care in your program? Yes No Tier 2: Through what activities are you promoting and/ or facilitating well woman visits/ preventive health care? Technical Assistance Training Product Development Research/ Peer-reviewed publications Outreach/ Information Dissemination/ Education Tracking/ Surveillance Screening/ Assessment Referral/ care coordination Direct Service Quality improvement initiatives Tier 3: How many are reached through those activities? (Report in Table 1: Activity Data Collection Form) # receiving training # products developed # peer-reviewed publications published # receiving information and education through outreach # receiving screening/ assessment # referred/care coordinated # received direct service # participating in quality improvement initiatives Tier 4: What are the related outcomes in the reporting year? % of women with a well woman/ preventative visit in the past year. Numerator: Women program participants who received a well-woman or preventive (including prenatal or postpartum) visit in the 12 months prior to last assessment within the reporting period. Denominator: Women program participants during the reporting period. Definition: A participant is considered to have a well-woman or preventive visit and included in the numerator if she has a documented health assessment visit where she obtained recommended preventive services that are age and developmentally appropriate within twelve

¹³ Consistent with Healthy Start Benchmark 5: The percent of Healthy Start women participants who have a well-woman visit.

months of her last contact with the Program in the reporting year.

For purposes of reporting, a prenatal visit or postpartum visit during the twelve month period would meet the standard.

BENCHMARK DATA SOURCES

BRFSS (Women 18-44 with a past-year preventive visit: 65.2%, 2013); Vital Statistics (any prenatal care: 98.4%, 2014); PRAMS (postpartum visit: 91%, 2011)

GRANTEE DATA SOURCES

Grantee Data Systems

SIGNIFICANCE

A number of illnesses that affect women can be prevented when proper well-woman care is a priority and even illnesses that can't be prevented have a much better prognosis when detected early during a regular well-woman care exam. ACOG recommends annual assessments to counsel patients about preventive care and to provide or refer for recommended services. These assessments should include screening, evaluation and counseling, and immunizations based on age and risk factors. ¹⁴

WMH 4 Performance Measure The percent of programs promoting and/ or facilitating depression **Edited for Clarity and Consistency** screening. **Goal: Depression Screening** Level: Grantee Domain: Women's/ Maternal Health To ensure supportive programming for depression screening. **GOAL** MEASURE The percent of MCHB funded projects promoting and/ or facilitating depression screening and through what processes. **DEFINITION Tier 1**: Are you promoting and/ or facilitating depression screening in your program? Yes No Tier 2: Through what activities are you promoting and/ or facilitating depression screening? ☐ Technical Assistance ☐ Training ☐ Product Development ☐ Research/Peer-reviewed publications ☐ Outreach/ Information Dissemination/ Education ☐ Tracking/Surveillance ☐ Screening/Assessment ☐ Referral/ care coordination ☐ Direct Service ☐ Quality improvement initiatives **Tier 3**: How many are reached through those activities? (Report in Table 1: Activity Data Collection Form) # receiving TA # receiving training # products developed # peer-reviewed publications published # receiving information and education through outreach # receiving screening/ assessment # referred/care coordinated # received direct service # participating in quality improvement initiatives **Tier 4**: What are the related outcomes in the reporting year? % of women screened for depression using a validated tool¹⁵ **Numerator:** Number of women program participants who were screened for depression with a validated tool during the reporting period. **Denominator:** Number of women program participants in the reporting period. Definition: A participant is considered to have been screened and included in the numerator if a standardized screening tool which is appropriately validated for her circumstances is used. Several screening instruments have been validated for use to assist with systematically identifying patients with depression.¹⁶

¹⁵ Consistent with Healthy Start Benchmark 12a and 12b: Percent of Healthy Start women participants who receive depression screening and referral.

 $^{{\}tt 16\,http://www.acog.org/Resources-And-Publications/Committee-Opinions/Committee-on-Obstetric-Practice/Screening-for-Perinatal-Depression}$

% of women who screened positive for depression who received a referral for services

Numerator: Number of women participants who screened positive for depression during the reporting period and received a subsequent referral for follow-up services. **Denominator:** Number of HS women participants who screened positive for depression during the reporting period.

Definitions: A participant is considered to have been referred for follow-up services and included in the numerator if she is referred to a qualified practitioner for further assessment for depression. Referral can be to either an internal or external provider depending on availability and staffing model.

BENCHMARK DATA SOURCES

Related to Healthy People 2020 MICH #34 Objective: (Developmental) Decrease the proportion of women delivering a live birth who experience postpartum depressive symptoms. PRAMS (depression screening)

GRANTEE DATA SOURCES

Grantee Data Systems

SIGNIFICANCE

Perinatal depression is one of the most common medical complications during pregnancy and may include major and minor depressive episodes. It is important to identify women with depression because when untreated, mood disorders can have adverse effects on women, infants, and families. Often, perinatal depression goes unrecognized because the changes are often attributed to normal pregnancy, such as changes in sleep and appetite. Therefore, it is important and recommended that clinicians screen patients at least once during the perinatal period for depression. Although screening is important for detecting perinatal depression, screening by itself is insufficient to improve clinical outcomes and must be paired with appropriate follow-up and treatment when indicated.¹⁷

BENCHMARK DATA SOURCES	National Survey of Children's Health Indicator 4.16: Developmental screening during health care visit, age 10 months-5 years (2011/2012)
GRANTEE DATA SOURCES	Title V National Performance Measure #6, Title V National Outcome Measure #12

CH 3 Performance Measure	Percent of programs promoting developmental screenings and follow-up for children.
Goal: Developmental Screening	ronow-up for children.
Level: Grantee Domain: Child Health	
Domain: Ciniu ricatui	

SIGNIFICANCE

Early identification of developmental disorders is critical to the well-being of children and their families. It is an integral function of the primary care medical home and an appropriate responsibility of all pediatric health care professionals. The early identification of developmental problems should lead to further developmental and medical evaluation, diagnosis, and treatment, including early developmental intervention. Children diagnosed with developmental disorders should be identified as children with special health care needs, and chronic-condition management should be initiated. Identification of a developmental disorder and its underlying etiology may also drive a range of treatment planning, from medical treatment of the child to family planning for his or her parents.

INSTRUCTIONS FOR COMPLETION OF FORM 1 MCH BUDGET DETAILS FOR FY

- Line 1. Enter the amount of the Federal MCHB grant award for this project.
- Line 2. Enter the amount of carryover (e.g., unobligated balance) from the previous year's award, if any. New awards do not enter data in this field, since new awards will not have a carryover balance.
- Line 3. If matching funds are required for this grant program list the amounts by source on lines 3A through 3E as appropriate. Where appropriate, include the dollar value of in-kind contributions.
- Line 4. Enter the amount of other funds received for the project, by source on Lines 4A through 4E, specifying amounts from each source. Also include the dollar value of in-kind contributions.
- Line 5. Displays the sum of lines 1 through 4.
- Line 6. Enter the amount of other Federal funds received on the appropriate lines (A.1 through C.12) **other** than the MCHB grant award for the project. Such funds would include those from other Departments, other components of the Department of Health and Human Services, or other MCHB grants or contracts.
 - Line 6C.1. Enter only project funds from the Center for Medicare and Medicaid Services. Exclude Medicaid reimbursement, which is considered Program Income and should be included on Line 3C or 4C.
 - If lines 6A.8-10, 6B.4-6, or 6C.10-12 are utilized, specify the source(s) of the funds in the order of the amount provided, starting with the source of the most funds.
- Line 7. Displays the sum of lines in 6A.1 through 6C.12.

INSTRUCTIONS FOR THE COMPLETION OF FORM 2 PROJECT FUNDING PROFILE

Instructions:

Complete all required data cells. If an actual number is not available, use an estimate. Explain all estimates in a note.

The form is intended to provide funding data at a glance on the estimated budgeted amounts and actual expended amounts of an MCH project.

For each fiscal year, the data in the columns labeled Budgeted on this form are to contain the same figures that appear on the Application Face Sheet (for a non-competing continuation) or the Notice of Grant Award (for a performance report). The lines under the columns labeled Expended are to contain the actual amounts expended for each grant year that has been completed.

FORM 4

PROJECT BUDGET AND EXPENDITURES By Types of Services

		FY		FY	
	TYPES OF SERVICES	Budgeted	Expended	Budgeted	Expended
I.	Direct Health Care Services (Basic Health Services and Health Services for CSHCN.)	\$	\$	\$	\$
II.	Enabling Services (Transportation, Translation, Outreach, Respite Care, Health Education, Family Support Services, Purchase of Health Insurance, Case Management, and Coordination with Medicaid, WIC and Education.)	\$	\$	\$	\$

IV.	TOTAL	\$	\$	\$	\$

INSTRUCTIONS FOR THE COMPLETION OF FORM 4 PROJECT BUDGET AND EXPENDITURES BY TYPES OF SERVICES

Complete all required data cells for all years of the grant. If an actual number is not available, make an estimate. Please explain all estimates in a note. Administrative dollars should be allocated to the appropriate level(s) of the pyramid on lines I, II, II or IV. If an estimate of administrative funds use is necessary, one method would be to allocate those dollars to Lines I, II, III and IV at the same percentage as program dollars are allocated to Lines I through IV.

Note: Lines I, II and II are for projects providing services. If grant funds are used to build the infrastructure for direct care delivery, enabling or population-based services, these amounts should be reported in Line IV (i.e., building data collection capacity for newborn hearing screening).

Line I Direct Health Care Services - enter the budgeted and expended amounts for the appropriate fiscal year completed and budget estimates only for all other years.

> Direct Health Care Services are those services generally delivered one-on-one between a health professional and a patient in an office, clinic or emergency room which may include primary care physicians, registered dietitians, public health or visiting nurses, nurses certified for obstetric and pediatric primary care, medical social workers, nutritionists, dentists, sub-specialty physicians who serve children with special health care needs, audiologists, occupational therapists, physical therapists, speech and language therapists, specialty registered dietitians. Basic services include what most consider ordinary medical care, inpatient and outpatient medical services, allied health services, drugs, laboratory testing, x-ray services, dental care, and pharmaceutical products and services. State Title V programs support - by directly operating programs or by funding local providers - services such as prenatal care, child health including immunizations and treatment or referrals, school health and family planning. For CSHCN, these services include specialty and sub-specialty care for those with HIV/AIDS, hemophilia, birth defects, chronic illness, and other conditions requiring sophisticated technology, access to highly trained specialists, or an array of services not generally available in most communities.

Line II Enabling Services - enter the budgeted and expended amounts for the appropriate fiscal year completed and budget estimates only for all other years.

> **Enabling Services** allow or provide for access to and the derivation of benefits from, the array of basic health care services and include such things as transportation, translation services, outreach, respite care, health education, family support services, purchase of health insurance, case management, coordination of with Medicaid, WIC and educations. These services are especially required for the low income, disadvantaged, geographically or culturally isolated, and those with special and complicated health needs. For many of these individuals, the enabling services are essential - for without them access is not possible. Enabling services most commonly provided by agencies for CSHCN include transportation, care coordination, translation services, home visiting, and family outreach. Family support activities include parent support groups, family training workshops, advocacy, nutrition and social work.

Public Health Services and Systems - enter the budgeted and expended amounts for the appropriate Line III fiscal year completed and budget estimates only for all other years.

Public Health Services and Systems include preventive interventions and personal health services, developed and available for the entire MCH population of the State rather than for individuals in a one-on-one situation. Disease prevention, health promotion, and statewide outreach are major components. Common among these services are newborn screening, lead screening, immunization, Sudden Infant Death Syndrome counseling, oral health, injury prevention, nutrition and outreach/public education. These services are generally available whether the mother or child receives care in the private or public system, in a rural clinic or an HMO, and whether insured or not. The other critical aspect of Public Health Services and Systems are activities directed at improving and maintaining the health status of all women and children by providing support for development and maintenance of comprehensive health services systems and

resources such as health services standards/guidelines, training, data and planning systems. Examples include needs assessment, evaluation, planning, policy development, coordination, quality assurance, standards development, monitoring, training, applied research, information systems and systems of care. In the development of systems of care it should be assured that the systems are family centered, community based and culturally competent.

Line V Total – Displays the total amounts for each column, budgeted for each year and expended for each year completed.

VI. KEY WORDS

VII. ANNOTATION

INSTRUCTIONS FOR THE COMPLETION OF FORM 6 PROJECT ABSTRACT

NOTE: All information provided should fit into the space provided in the form. The completed form should be no more than 3 pages in length. Where information has previously been entered in forms 1 through 5, the information will automatically be transferred electronically to the appropriate place on this form.

Section I - Project Identifier Information

Project Title: Displays the title for the project.

Project Number: Displays the number assigned to the project (e.g., the grant number)

E-mail address: Displays the electronic mail address of the project director

Section II – Budget - These figures will be transferred from Form 1, Lines 1 through 5.

Section III - Types of Services

Indicate which type(s) of services your project provides, checking all that apply.

Section IV - Program Description OR Current Status (DO NOT EXCEED THE SPACE PROVIDED)

- A. New Projects only are to complete the following items:
 - 1. A brief description of the project and the problem it addresses, such as preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children; and services for Children with Special Health Care Needs.
 - 2. Provide up to 5 aims of the project, in priority order. Examples are: To reduce the barriers to the delivery of care for pregnant women, to reduce the infant mortality rate for minorities and "services or system development for children with special healthcare needs." MCHB will capture annually every project's top aims in an information system for comparison, tracking, and reporting purposes; you must list at least 1 and no more than 5 aims. For each goal, list the key related activities. The aims and activities must be specific and time limited (i.e., Aim 1: increase providers in area trained in providing quality well-child visits by 10% by 2017 through 1. trainings provided at state pediatric association and 2. on-site technical assistance).
 - 3. Displays the primary Healthy People 2020 goal(s) that the project addresses.
 - **4.** Describe the programs and activities used to reach aims, and comment on innovation, cost, and other characteristics of the methodology, proposed or are being implemented. Lists with numbered items can be used in this section.
 - **5.** Describe the coordination planned and carried out, in the space provided, if applicable, with appropriate State and/or local health and other agencies in areas(s) served by the project.
 - **6.** Briefly describe the evaluation methods that will be used to assess the success of the project in attaining its aims and implementing activities.

B. For continuing projects ONLY:

- 1. Provide a brief description of the major activities and accomplishments over the past year (not to exceed 200 words).
- 2. If applicable, provide the number of hits by unique visitors to the website (or section of website) funded by MCHB for the past year.

Section V – Key Words

Provide up to 10 key words to describe the project, including populations served. Choose key words from the included list.

Section VI - Annotation

Provide a three- to five-sentence description of your project that identifies the project's purpose, the needs and problems, which are addressed, the aims of the project, the related activities which will be used to meet the aims, and the materials, which will be developed.

INSTRUCTIONS FOR THE COMPLETION OF FORM 7 PROJECT SUMMARY

Section 1 – Project Service Focus

Select all that apply

Section 2 – Project Scope

Choose the one that best applies to your project.

Section 3 – Grantee Organization Type

Choose the one that best applies to your organization.

Section 4 – Project Infrastructure Focus

If applicable, choose all that apply.

Section 5 – Demographic Characteristics of Project Participants

Indicate the service level for the grant program. Multiple selections may be made. Please fill in each of the cells as appropriate.

Direct Health Care Services are those services generally delivered one-on-one between a health professional and a patient in an office, clinic or emergency room which may include primary care physicians, registered dietitians, public health or visiting nurses, nurses certified for obstetric and pediatric primary care, medical social workers, nutritionists, dentists, sub-specialty physicians who serve children with special health care needs, audiologists, occupational therapists, physical therapists, speech and language therapists, specialty registered dietitians. Basic services include what most consider ordinary medical care, inpatient and outpatient medical services, allied health services, drugs, laboratory testing, x-ray services, dental care, and pharmaceutical products and services. State Title V programs support - by directly operating programs or by funding local providers - services such as prenatal care, child health including immunizations and treatment or referrals, school health and family planning. For CSHCN, these services include specialty and subspecialty care for those with HIV/AIDS, hemophilia, birth defects, chronic illness, and other conditions requiring sophisticated technology, access to highly trained specialists, or an array of services not generally available in most communities.

Enabling Services allow or provide for access to and the derivation of benefits from, the array of basic health care services and include such things as transportation, translation services, outreach, respite care, health education, family support services, purchase of health insurance, case management, coordination of with Medicaid, WIC and educations. These services are especially required for the low income, disadvantaged, geographically or culturally isolated, and those with special and complicated health needs. For many of these individuals, the enabling services are essential - for without them access is not possible. Enabling services most commonly provided by agencies for CSHCN include transportation, care coordination, translation services, home visiting, and family outreach. Family support activities include parent support groups, family training workshops, advocacy, nutrition and social work.

Public Health Services and Systems include preventive interventions and personal health services, developed and available for the entire MCH population of the State rather than for individuals in a one-on-one situation. Disease prevention, health promotion, and statewide outreach are major components. Common among these services are newborn screening, lead screening, immunization, Sudden Infant Death Syndrome counseling, oral health, injury prevention, nutrition and outreach/public education. These services are generally available whether the mother or child receives care in the private or public system, in a rural clinic or an HMO, and whether insured or not. The other critical aspect of Public Health Services and Systems are activities directed at improving and maintaining the health status of all women and children by providing support for development and maintenance of comprehensive health services systems and resources such as health services standards/guidelines, training, data and planning systems. Examples include needs assessment, evaluation, planning, policy development, coordination, quality assurance, standards development, monitoring, training, applied research, information systems and systems of care. In the development of systems of care it should be assured that the systems are family centered, community based and culturally competent.

Section 6 – Clients Primary Language(s)

Indicate which languages your clients speak as their primary language, other than English, for the data provided in Section 6. List up to three languages.

Section 7 – Check all population served

Section 8 – Resource/TA and Training Centers (Only)

Answer all that apply.

- IX. KEY WORDS
- X. ANNOTATION

INSTRUCTIONS FOR THE COMPLETION OF FORM 8 MATERNAL & CHILD HEALTH RESEARCH PROJECT ABSTRACT

NOTE: All information provided should fit into the space provided in the form. Do not exceed the space provided.

Where information has previously been entered in forms 1 through 5, the information will automatically be transferred electronically to the appropriate place on this form.

Section I – Project Identifier Information

Project Title: Displays the title for the project.

Project Number: Displays the number assigned to the project (e.g., the grant number).

Project Director: Displays the name and degree(s) of the project director as listed on the grant application.

Principal Investigator: Enter the name(s) and discipline(s) of the principal investigator(s).

Section II - Budget

The amounts for Lines 1 through 5 will be transferred from Form 1, Lines 1 through 5.

Section III - Care Emphasis

Indicate whether the study is interventional or non-interventional.

Section IV – Population Focus

Indicate which population(s) are the focus of the study. Check all that apply.

Section V – Study Design

Indicate which type of design the study uses.

Section VI – Time Design

Indicate which type of design the study uses.

Section VII – Priority Research Issues and Questions of Focus (DO NOT EXCEED THE SPACE PROVIDED)

Provide a brief statement of the primary and secondary (if applicable) areas to be addressed by the research. The topic(s) should be from those listed in the *Maternal and Child Health Bureau (MCHB) Strategic Research Issues: Fiscal Years (FYs)* 2004 – 2009).

Section VIII - Abstract

Section IX - - Key Words

Provide up to 10 key words to describe the project, including populations served. A list of key words used to classify active projects is included. Choose keywords from this list when describing your project.

Section X - Annotation

Provide a three- to five-sentence description of your project that identifies the project's purpose, the needs and problems which are addressed, the aims of the project, the related activities which will be used to meet the stated aims, and the materials, which will be developed.

TECHNICAL ASSISTANCE/COLLABORATION FORM - REVISED JULY 2019

DEFINITION: Technical Assistance/Collaboration refers to mutual problem solving and collaboration on a range of issues, which may include program development, clinical services, collaboration, program evaluation, needs assessment, and policy & guidelines formulation. It may include administrative services, site visitation and review/advisory functions. Collaborative partners might include State or local health agencies, and education or social service agencies. Faculty may serve on advisory boards to develop &/or review policies at the local, State, regional, national or international levels. The technical assistance (TA) effort may be a one-time or on-going activity of brief or extended frequency. The intent of the measure is to illustrate the reach of the training program beyond trainees.

Provide the following summary information on ALL TA provided

Total Number of	Total Number of TA Recipients	TA Activities by Type of Recipient	Number of TA Activities
Technical Assistance/	_		by
Collaboration Activities			Target Audience
		Other Divisions/ Departments in a University	
		Title V (MCH Programs)	Local
		State Health Dept.	Title V
		Health Insurance/ Organization	Within State
		Education	Another State
		Medicaid agency	Regional
		Social Service Agency	National
		Mental Health Agency	Local Title V Within State Another State Regional National International
		Juvenile Justice or other Legal Entity	
		State Adolescent Health	
		Developmental Disability Agency	
		Early Intervention	
		Other Govt. Agencies	
		Mixed Agencies	
		☐ Professional Organizations/Associations	
		Family and/or Consumer Group	
		Foundations	
		Clinical Programs/ Hospitals	
		Other: Please Specify	

B. Provide information below on the <u>5-10 most significant</u> technical assistance/ collaborative activities in the past year. In the notes, briefly state why these were the most significant TA events.

C. In the past year have you provided technical assistance on emerging issues that are not represented in the topic list above? YES/NO.

If yes, specify the topic(s):_______

Products, Publications and Submissions Data Collection Form

Part 1

Instructions: Please list the number of products, publications and submissions addressing maternal and child health that have been published or produced with grant support (either fully or partially) during the reporting period. Count the original completed product, not each time it is disseminated or presented.

Туре	Number
In Press peer-reviewed publications in scholarly journals	
Please include peer reviewed publications addressing maternal and child health that have been published by project faculty and/or staff during the reporting period. Faculty and staff include those listed in the budget form and narrative and others that your program considers to have a central and ongoing role in the project whether they are supported or not supported by the grant.	
Submission(s) of peer-reviewed publications to scholarly journals	
Books	
Book chapters	
Reports and monographs (including policy briefs and best practices reports)	
Conference presentations and posters presented	
Web-based products (Blogs, podcasts, Web-based video clips, wikis, RSS feeds, news aggregators, social networking sites)	
Electronic products (CD-ROMs, DVDs, audio or videotapes)	
Press communications (TV/Radio interviews, newspaper interviews, public service announcements, and editorial articles)	
Newsletters (electronic or print)	
Pamphlets, brochures, or fact sheets	
Academic course development	
Distance learning modules	
Doctoral dissertations/ Master's theses	
Other	

Part 3 Instructions: For each product, publication and submission listed in Part 1, complete all elements marked with an "*."
